

Product

Superiol HYD 46

Hydraulic

16 August 2018

Product Data Sheet

Sample Label

Specification

ISO-HM DIN-HLP

Viscosity Index

N/A

Appearance

Clear amber fluid

Density @ 15 Celsius

0.870 Kg/L DIN 51757

Kinematic Viscosity @ 40 C

46 cSt ASTM D445

Kinematic Viscosity @ 100 C

N/A

Approvals

-

Recommendations

-

- Mineral based hydraulic oil suitable for use where an ISO-VG 46 specification is required
- It's miscible with all mineral and synthetic based hydraulic oils. Thus, no flushing is necessary
- Suitable in most common hydraulic systems
- Advantages/Benefits include:
 - * Good viscosity behaviour; it stays in grade even in severe conditions
 - * No loss of performance as a result of corrosion, deposits and gumming on pistons and valves; and,
 - * Provides protection against wear due to a stable lubricating film, the absence of foaming and the elimination of stick slip
- Product selection should be based on full knowledge of equipment requirements, environment and operating conditions
